Baker Atlas a/k/a Western Atlas Inc. a/ k/a Wedge Dia-Log Inc., Operating in the Following States; TA-W-35,434A Texas, TA-W-35,434B Louisiana, TA-W-35,434C California, TA-W-35,434D Pennsylvania, TA-W-35,434E Massachusetts, TA-W-35,434F Colorado; Amended Certification Regarding Eligibility to Apply for Worker Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974 (19 U.S.C. 2273) the Department of Labor issued a Notice of Determination Regarding Eligibility to Apply for Worker Adjustment Assistance on February 24, 1999, applicable to workers of Baker Atlas operating at various locations in Texas, Louisiana, California, Pennsylvania, Massachusetts and Colorado. The notice was published in the **Federal Register** on April 6, 1999 (64 FR 16753).

At the request of the State agency, the Department reviewed the certification for workers of the subject firm. The workers are engaged in the exploration and drilling of crude oil. Findings on review show that some of the workers have had their wages reported to Unemployment Insurance tax accounts under Western Atlas Inc. and Wedge Dia-Log Inc. The company official explained that in August 1998, the subject firm merged with Western Atlas Inc. which owned Wedge Dia-Log Inc. The intent of the Department's certification is to include all workers of Baker Atlas. Accordingly, the Department is amending the worker certification to reflect this matter.

The amended notice applicable to TA-W-35,434A-F is hereby issued as follows:

All workers of Baker Atlas, also known as Western Atlas Inc. and also known as Wedge Dia-Log Inc. in field locations in Texas (TA-W-35,434A), Louisiana (TA-W-35,434B), California (TA-W-35,434C), Pennsylvania (TA-W-35,434D), Massachusetts (TA-W-35,434E), and Colorado (TA-W-35,434F) who became totally or partially separated from employment on or after November 30, 1997 through February 24, 2001, are eligible to apply for adjustment assistance under section 223 of the Trade Act of 1974.

Signed at Washington, DC., this 24th day of May 1999.

Grant D. Beale,

Acting Director, Office of Trade Adjustment Assistance.

Baker Atlas, Headquartered in Houston, TX; Negative Determination Regarding Application for Reconsideration

By application bearing the postmark date April 14, 1999, the petitioners requested administrative reconsideration of the Department's negative determination regarding eligibility for workers and former workers of the subject firm to apply for Trade Adjustment Assistance (TAA). The denial notice applicable to workers of Baker Atlas, headquartered in Houston, Texas, was signed on February 24, 1999, and published in the **Federal Register** on April 6, 1999 (63 FR 16753).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) If it appears that the determination complained of was based on a mistake in the determination of facts not previously considered; or

(3) If in the opinion of the Certifying Officer, a misinterpretation of facts or of the law justified reconsideration of the decision.

The petition was filed on behalf of workers of the subject firm headquarters and oilfield equipment production facility in Houston, Texas. The investigation was expanded to include workers of the subject firm engaged in the exploration and drilling of crude oil in Texas, Louisiana, California, Pennsylvania, Massachusetts and Colorado (TA-W-35, 434A-E). The Baker Atlas workers at the field locations were certified eligible to apply for TAA and are not subject of the application for reconsideration. The investigation applicable to the headquarters and oilfield equipment production workers resulted in a negative determination based on the finding that the workers did not meet the "contributed importantly" group eligibility requirement of section 222(3) of the Trade Act of 1974, as amended. The oilfield equipment produced by workers at Baker Atlas in Houston was used exclusively by the subject firm drilling and exploration operations in Texas and five other States. Other findings of the investigation revealed that the United States is a net exporter of oilfield equipment.
